

Press release:

Hedensted 02/09-2019

To all interested parties of PRI-DANA Elektronik A/S

PRI-DANA has achieved certification of our Quality Management System according to the aerospace standard AS9100D.

As part of strengthen the future market opportunities and continuously develop the company capabilities, PRI-DANA decided to further invest in the match of aerospace requirements, for our sales and production of high reliable bare Printed Circuit Boards.

This will open further business opportunities in the aviation, space and defense segments, where the requirements for proven, safe and compliant products are crucial.

We have been through all business procedures and work instructions of the 15.000 sqm. production site in Hedensted, Denmark and have developed these to secure full compliance to the aerospace requirements, to secure well managed process performance and control of all business processes.

In autumn 2019 we further install total new plating equipment and will through further investments be able to support higher density, wider product program and faster time-to market opportunities for our customer base.

Best Regards
