

## Statement of product compliance with the California Proposition 65

The surface finish decides whether PCB's produced by PRI-DANA Elektronik A/S do or do not contain substances described in the most current revision of the California's Safe Drinking Water and Toxic Enforcement Act of 1986 (Proposition 65).

The present compliance statement covers the material list updated 27-01-2023.

According to our knowledge, based on information retrieved from our suppliers, the remaining parts of the PCB's produced by PRI-DANA Elektronik A/S, do not contain any of the substances listed in the PROP 65 material list.

The latest material list can be viewed here: <https://oehha.ca.gov/proposition-65/proposition-65-list>

Compliant surface finishes are the following:

Surface finish	Compliance	Comment
Immersion Sn	YES	Sn deposit (contains Ag)
Immersion Ag	YES	Ag deposit

Non-compliant surface finishes are the following:

Surface finish	Compliance	Comment
Electroless Ni, immersion Au	NO	Contains Ni as NiP alloy
Galvanic Ni	NO	Pure Ni deposit
Galvanic Ni + Au	NO	Pure Ni deposit
Traditional Hot Air Levelling	NO	37% Pb in alloy
Lead free Hot Air Levelling	NO	Alloy (SN 100 C) contains up to 0.1 % Ni
Fused Sn/Pb	NO	37% Pb in alloy
